

LISTING OF CLAIMS

Claims 1-25 (CANCELED) :

26. (currently amended) A composition comprising a combination of ~~an antioxidant agent and a mixed PPAR ligand for the α and γ receptor sub-types, or a selective PPAR~~
5 ~~ligand for the α receptor sub-type and a selective PPAR ligand for the γ receptor sub-type~~ coenzyme Q₁₀ and rosiglitazone or an addition salt thereof with a
pharmaceutically acceptable acid or base.

27. (canceled)

28. (canceled)

10 29. (canceled)

30. (canceled)

31. (canceled)

32. (previously presented) A pharmaceutical composition comprising as active ingredient
15 a composition of Claim 26, in combination with one or more pharmaceutically-
acceptable excipients.

33. (withdrawn) A method for treating and/or preventing a living animal body, including a
human, afflicted with obesity comprising the step of administering to the living animal
body, including a human, an amount of a composition of Claim 26 which is effective
for alleviation of obesity.

20 34. (withdrawn) A method for treating a living animal body, including a human, afflicted
with obesity caused by a therapeutic treatment comprising the step of administering to

the living animal body, including a human, an amount of a composition of Claim 26 which is effective for alleviation of said disorder.

5 35. (withdrawn) A method for treating a living animal body, including a human, afflicted with obesity caused by treatment for type I or II diabetes comprising the step of administering to the living animal body, including a human, an amount of a composition of Claim 26 which is effective for alleviation of obesity caused by treatment for type I or II diabetes.

10 36. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30 comprising the step of administering to the living animal body, including a human, an amount of a composition of Claim 26 which is effective for alleviation of the condition.

15 37. (withdrawn) A method for treating a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30 caused by a therapeutic treatment comprising the step of administering to the living animal body, including a human, an amount of a composition of Claim 26 which is effective for alleviation of the condition.

20 38. (withdrawn) A method for treating a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30 caused by treatment for type I or II diabetes comprising the step of administering to the living animal body, including a human, an amount of a composition of Claim 26 which is effective for alleviation of the condition.

25 39. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with obesity, comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of obesity.

40. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with obesity caused by a therapeutic treatment, comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of obesity caused by a therapeutic treatment.

41. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with obesity caused by treatment for type I or II diabetes, comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of obesity caused by treatment for type I or II diabetes.

42. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30, comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of the condition.

43. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30 caused by a therapeutic treatment, comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of the condition.

44. (withdrawn) A method for treating and/or preventing a living animal body, including a human, afflicted with an overweight condition characterised by a body mass index greater than 25 and less than 30 caused by treatment for type I or II diabetes,

comprising the step of administering to the living animal body, including a human, an amount of a composition comprising one or more PPAR ligands and an antioxidant agent which is effective for alleviation of the condition..
